Aligning Diagnosis with Care

Identify your diagnosis, the activities that make it better and your own personal preferences. In the scope of work address what type of care needed for this diagnosis and the amount of time it takes to do. Finally, show the date and time it takes to provide this care. Round up to 15 minutes.

Diagnosis	Activities that help (resting, exercise)	Personal preferences (foods, pillows)	Scope of Work	Time needed	Date (M/DD)	Amount of time
